REMARKS _____

25X1 Prior to 18 June 1953, the wood camp southeast of the Jaevenitz-Uchtsprunge
25X1 railroad line was occupied as previously. On 19 June, the tent camp appeared
to be vacant. The troops stationed there presumably had left during the
night. During the night on 24 June, the camp was again occupied. The sec-
tion seen from the railroad line appeared occupied to capacity. At 10 a.m.,
on 6 July, 12 trucks occupied by troops and towing 2 AT guns and sedans
25X1 were seen en route toward the camp. On
2, 3, and 4 July, each 60 to 100 EM and 20 officers went toward Stendal aboard
25X1 the regular train at 5 p.m. On 5 and 6 July, a total of about 20 trucks with
billeting equipment were entrained. The shipment, which was escorted by a
25X1 few troops, left toward the east.

25X1 Comment. The units of the 207th Mtz Rifle Div stationed at the camp
are rather safely believed to have been employed in security missions during
the rebellion. The units of the 597th Mtz Rifle Regt of the division stationed
at the camp presumably had been employed in Quedlinburg, where they were still
carried in mid-July. Therefore, the wood camp,
after the return of the troops on 24 June, probably was only partially occupied.
It is possible that, on 5 and 6 July, equipment of the above mentioned regi-
ment was shipped to Quedlinburg.
